*Building a Business
from the Heart*

*Creating Commission through
Compassion & Profit through Passion!*

*“For PASSION is
the lifeblood of our Mission.
It’s what separates us
from the mere “sellers”
and launches us into
the realm of “Life Changers.”
Passion is our breath on
a cold winter’s morning and
our sweat on a hot summer’s eve.”*

Message from Mr. Ohshiro

“Enthusiasm. Fervor. Excitement. Dedication. SPIRIT.”

These are all words to evoke the notion of **PASSION**. To let blossom the energy of your heart; what **REALLY** moves you; what **MAKES** you awaken and seize the day!

For **PASSION** is the lifeblood of our Mission. It's what separates us from the mere “sellers” and launches us into the realm of “Life Changers.” Passion is our breath on a cold winter's morning and our sweat on a hot summer's eve.

My challenge to you this year is to reach down deep, deep in the depths of your soul, and clutch the deep passion you have for life. Is it to embrace people, to free them, to help them, even to empower them? Is it about looking deep within their being to see a common person who dreams like you do, who hopes like you do, even who pains like you do? Is it about the commonality of what **ALL** people seek: family security, prosperous and healthy living, abundant blessings and secure contentment?

If this is your passion, why in the world are you holding back? **WHO** indeed has told you that your passion is less? **WHAT** false circumstances have deluded you into thinking you are somehow less than capable? What **PAST** has deceived you into believing your passion is not critical to the world?

I say **ARISE!** Arise in your passion to change lives. And don't look back! Don't listen to the weak naysayers. Don't entertain the limited vision of those who would disempower you. And instead, **ARISE** with the vigor and passion of knowing that **YOU** are the crucible of **CHANGE** in people's lives! Is there any time to waste?

So as February blankets us in a warm feeling, and Valentine's Day reminds us of love and adoration for our people, clutch your **PASSION**. Stop playing small. Give it your **ALL**. And let loose the pigeons of passion as we overtake the world in Compassion for Families Worldwide!

May the Passion be Yours,
Hironari Ohshiro

Distributor Profile

6A5-3 Kazuo Sakita Jr.

Spain

From Spain to the World!

Throughout history, Spain has been known for their great conquerors and explorers. One of the most well-known Spanish explorers was Juan Ponce de Leon, who became famous for his attempts to discover the fountain of youth. While Ponce de Leon was ultimately unsuccessful, Kazuo Sakita

Jr., an Enagic distributor with a rank of 6A5-3, has not only found his own "fountain of youth," but a profitable way to help the world quench its thirst.

Initially, a close friend from Portugal introduced him to the Enagic Leveluk line of machines. When he found out the amazing hydration properties the water held, he fell in love with the machines and the benefits they could provide. While he was convinced of the enhanced hydration properties of Kangen Water, he simply wasn't interested in the business opportunity at the time. After his close friend continued to try and convince him to consider the business, Sakita presented him with an ultimatum. He said that if he really wanted to show him the business, then he should have no problem bringing them both to Japan to see the facility and meet some other distributors, corporate staff and customers. To his surprise, ten days

later, Sakita and his friend boarded a plane and made their way to Japan. Upon arrival, he was shown the immaculate facilities and the way the machines were made. He also got the chance to speak with distributors from around the globe, as well as corporate staff and excited Kangen Water drinkers alike.

While he was impressed, the thing which ultimately made him decide to pursue the Enagic business was a meeting with Mr. Ohshiro. "I was in awe of the factory's quality and impressed with everyone I met. Nothing could have prepared me for the life changing meeting with Mr. Ohshiro though. We talked for hours, and the more I heard, the

more I was convinced I could find my future with Enagic. By the time our meeting was over, I felt I had found my place in life. The idea of True Health made so much sense to me that I had to move forward and purchase my own machine and start my own Enagic business. I remember writing a letter to Mr. Ohshiro afterwards, thanking him for his hospitality and the opportunity he had presented to me. It truly was a life changing experience!"

Over the next five years, Sakita put his nose to the grindstone and focused on the success of his Enagic business. He faced a big hurdle in showing the Enagic Opportunity at first, but as he met more and more people, he was given the opportunity to learn from his experiences and expand his knowledge base. His business really took off as he began meeting people who had already been more successful than him with Enagic. He was able to learn a lot from these prominent leaders and refined his approach to the point where he had the utmost confidence that he was maximizing his time and effort and helping as many people as possible.

After five years of hard work and dedication, he achieved the rank of 6A5-3 which is a truly impressive feat. Through his Enagic business he's helped many people achieve the new life they had always dreamed of having. "My happiest moments are directly linked to my friends and family. Being able to share the success I have had with my 2 brothers has brought me a level of joy I cannot begin to explain. Beyond just family, I have seen close friends with whom I have shared the Kangen Water experience, the prosperity, and freedom that only True Health can bring through the Enagic Business and Kangen Water."

He has now set his sights on the future and how he can better the lives of even more people. He is currently working to help those he's brought on board hit the rank of 6A2-3 so they, too, can feel the relief and excitement that comes from embracing a life of sound mind, a healthy body, and great financial freedom; a perfect example of True Health.

ANESPA DX

NEW AND IMPROVED!

- The ceramic balls from the Futama Hot Springs contain Tufa, which metabolizes when hardened and provides a relaxing and therapeutic hot spring effect. In other words, it will feel like you're actually soaking at the Futamata Hot Springs, right in the comfort of your own home!
- The MIC stones within the ceramic balls are rich in minerals and purify your water. These stones generate mildly alkaline water which is beneficial for the skin.
- The Chikutan (bamboo charcoal) Ceramic balls help to clean the air while generating strong negative-ions that provide a relaxing and soothing effect.

**ALL TOGETHER, THESE
FEATURES WILL WORK
TO PROTECT YOUR
SKIN & HAIR, AND
WILL TAKE
YOUR BEAUTY
LIFESTYLE TO
THE NEXT LEVEL!**

We've redesigned the base
of our new ANESPA DX
for a more efficient filter
replacement process.

E8PA Global Convention in Thailand

The recent E8PA Global Convention in Bangkok, Thailand was an absolutely spectacular event, filled with strategic planning, recognition and the celebration of continued success throughout the region and the world. The first day of the event started with a special strategic planning meeting with Mr. & Mrs. Ohshiro, senior corporate staff and the 6A2-6's and above in attendance, which represent the highest ranked distributors in Enagic. The meeting was very productive, as excellent ideas about how to make 2019 Enagic's best year ever were discussed. "Our distributor leaders are a vital part of our overall success," said Mr. Ohshiro. "They understand their markets and have worked their way up the Enagic ranks, so they know what it takes to be successful in this business. Their input and support is extremely important to help shape how we will continue to bring Kangen Water and True Health to the world."

6A2-6 meeting

6A2-3 & Above meeting

Ukon Training by Angeline

1A - 5A Training by "Dr. Kaz"

The 6A2-6 meeting was followed by a 6A2-3 and above meeting, where over fifty participants were in attendance. The mood was upbeat and people were excited about the many new ideas which are expected to help Enagic have a record breaking year in 2019. Mr. Ohshiro was very proud of Sam Sia and his team members, some of which had just recently achieved the rank of 6A2-3. These newly ranked distributors were invited to be part of this exclusive meeting, something which is a great honor for any distributor, and the excitement level became even higher when they were personally recognized by Mr. Ohshiro.

During the leadership meetings convened, Angeline took to the stage to conduct an informative training about the Kangen Ukon product line. Nearly every seat in the house was filled as she discussed different aspects of the products and ways to introduce prospects to the potential of Kangen Ukon. Immediately following Angeline, Enagic's own "Dr. Kaz" took to the stage to deliver an energetic training. His high energy delivery was appreciated by all and those in attendance learned many new things.

The next day was filled with even more activities and information, starting with a distributor training seminar featuring top leaders from around the world. “Enagic has created so many opportunities for people all around the world,” said Jayvee. “But in my opinion, the biggest thing Enagic has created for people is hope, which is something many people seemed to have lost. Hope gives us the chance to believe in a better tomorrow and Enagic has reignited that belief in many people!” After the leaders’ seminar, everyone prepared for the Executive Dinner & Recognition Ceremony.

The 6A2-6 leaders were asked to join the Ohshiro's on stage and they all raised a glass to toast continued success and good health! Afterwards, the attendees were treated to a variety of entertainment, which included dancing, singing and fun!

The recognition ceremony began after the entertainment, where new distributors who had recently achieved the rank of 6A and above were invited to the stage to be recognized for their outstanding accomplishment and, for those who were eligible, to receive their new title incentives. The evening concluded with Mr. Ohshiro and Mr. Arima thanking everyone for their hard work and dedication, encouraging all distributors to seize the day, and to continue to help Enagic spread Kangen Water with the concept of True Health.

Enagic Pro-Am Charity Golf Classic & Enagic Junior Championship

Enagic has always been a company which promotes having talents and varied skills beyond just salesmanship or customer service. One such talent they hope to nurture is the golf skills of distributors and aspiring young golfers alike. President and CEO Mr. Hironari Ohshiro has been an avid golfer for some time now. He's been known to not only play a full eighteen holes, but as a way to unwind afterwards, he immediately follows it up by playing an additional back nine.

His love for golf inspired him to host the Enagic Pro-Am Charity Golf Classic for the golfing community and Enagic distributors. On January 27th, distributors from across the globe gathered to play golf with professionals in Bangkok, Thailand. Golfers were treated to a wonderful tournament with a healthy competitive spirit and plenty of Kangen Water. Not only did those in attendance benefit from a day of golf at the beautiful Lotus Valley Golf Resort, but all proceeds collected during the event were donated to various charities. But the fun wasn't over, as the next

two days were the Enagic Junior Championship Asia Tournament at the same immaculate course.

Young, aspiring professional golfers from different Asian countries played their hearts out in hopes of being invited to the New E8PA golf course located in sunny San Diego, California for the AGJA Enagic Junior Championship being held later this year during the summer. The winners of the Enagic Junior Championship in Thailand are expected to face fierce competition in July, as the winners of the Japan Tournament, held on February 10th and 11th, will also be competing in California. With so much budding talent and passion for golf, spectators are sure to see an amazing display of skill and competition that will be talked about for years to come in the golf community.

Mr. Ohshiro couldn't be more excited for the future as he looks back on the tournaments he's helped create. "It fills my heart with so much joy to see these young athletes push themselves hard to achieve their dreams. I'm so happy that Enagic has been able to present a new opportunity to travel the globe and display these golfers' tenacity and determination in places they may not have ever been able to go otherwise. Promoting these heartfelt dreams is just one more facet and step of True Health!"

Indonesia

Drive + Determination

To be successful in any business, you must have a fierce commitment to yourself and those you work with, and a desire to work hard and smart. No one understands this more than Indonesia Enagic distributor and founder of 501 System Indonesia, Triadi Joko Cahyadi. Cahyadi and his team, Oce Tony, Diparama Malano, Wayan Mertayasa and Suhendra Setiadi, knew that to get the year started off properly, they needed to band together and hold an event to help motivate and educate distributors for the coming business year.

As a result, they held a massive event called the Grand Resolution Day on February 3rd, 2019 at Britama Arena in Jakarta.

It was there that roughly three thousand people, both distributor and non-distributor alike, were treated to a truly splendid training. It was 501 System Indonesia's goal to put on an event that could truly showcase the opportunity and potential an Enagic business held. To drive the point home, they enlisted the aid of prominent Enagic distributor Cynthia Briganti who regaled the crowd with her tale of success. It was also attended by Enagic Japan President Don Prosser, who gave an in-depth look on how to most effectively run an Enagic business. The event reached its peak as 120 dancers who were also Enagic distributors took to the stage in a traditional Kecak dance from Bali island in order to welcome Mr. and Mrs. Ohshiro to the stage.

The entertainment and cultural displays wowed the crowd and created a truly magical atmosphere that left an amazing imprint on all in attendance. As the training portion of the event concluded with encouraging words from Mr. Ohshiro, well-known local entertainers and

Enagic distributors David Noa, Luki Govinda, the Icon, and Koca Nine Ball took to the stage and performed many musical pieces that left the crowd in awe. There was even a special appearance from a band which took heavy inspiration from Enagic's delicious and healthy water called Kangen Water!

Not only were guests treated to a multitude of wonderful performances, but they were also given insight into Enagic that is sure to help motivate and spark a new wave of success in not only Indonesia, but the world. 501 System Indonesia had their own grand resolution in mind when they started planning this event. They wanted to ensure that Enagic would remain prosperous and become even more successful in the coming year. With the positive atmosphere and helpful information shared during their Grand Resolution Day event, they are sure that it will impact the world in a beautiful way which will help spread the message of True Health to even more people throughout the world.

NY, USA

Taking a Bite out of the “Big Apple” & the World!

Often times, those who are the most successful in life come from humble beginnings. It's the experience of starting with little which often motivates people to push themselves to strive for greatness. Enagic 6A2 Mihn Lu is a perfect example of this ideology and has embraced his beginnings to propel his future.

Along with his five siblings, Mihn Lu was born and lived in Vietnam in the early seventies in a war-torn rural countryside. The living conditions were tough, which helped motivate Mihn at an early age to begin learning farming skills and start working in order to survive. As time moved on, so did the discourse in his home territory. Eventually, he and his family fled the growing challenges of life in Vietnam and relocated to the prosperous United States. “Those years living in a foreign land were strange to me, but I could smell the opportunity in the air. I began working numerous jobs, including being a busboy, a waiter, a bell-boy and a porter. The more I worked, the more I learned.”

With a tremendous amount of effort, his numerous jobs helped him acquire a multitude of business skills. As he got

older, he realized he no longer wanted to be in business for others and dreamed of being in business for himself. With the knowledge he had gained, he opened up not only his own successful manicure and pedicure salon, but a thriving restaurant as well. While he was happy to finally be in business for himself, the day to day operation and workload were a great undertaking and were starting to take their toll. The stress and difficulty had begun wearing him down. Luckily, an acquaintance introduced a new water to him that was said to be able to better hydrate an individual and help improve daily life. He had been so focused on business that taking care of his own health had taken a major backseat. He decided to give the water a shot and was more than pleased with the effect it had on him and his family. After some additional research, he decided to move forward with Enagic and purchase his own machine in 2017.

His family and friends were not receptive to the idea at first. They felt it may detract from his established businesses and split his focus too much. However, Mihn saw the potential and knew that Kangen Water could be the perfect addition to both his nail salon and restaurant. In only nine months, those who doubted him and the business potential of Kangen Water were convinced as he achieved the distributor rank of 6A. Less than a year later, he had moved up yet again to the prestigious rank of 6A2.

“My previous business knowledge was indispensable in my Enagic endeavors. My experience, combined with a truly great product, was a dynamic recipe for success!” He is thankful to both his sponsor, Mai Ahn Le, who brought the opportunity to him and to Mr. Ohshiro

for creating such a splendid product and business opportunity for the world to enjoy.

While he admits his journey is still in its infancy, he has high hopes for the future and looks forward to being able to spread Mr. Ohshiro’s message of True Health globally. “Without the support of my family, friends, brothers and sisters, I would never have been able to get as far as I have. Now, with their support, along with the support of Enagic and their hardworking and determined staff, I’m confident that I can help spread Mr. Ohshiro’s idea of True Health to more people and bring success to the lives of many. Thank you all so much for your kindness, and I can’t wait until we are all united in True Health!”

Singapore Business Building “Singapore Style”

Entrepreneurship is an ever evolving and expanding idea, and it is important for one engaging in a business of this nature to constantly be educating themselves on the newest techniques and strategies. As any good entrepreneur will tell you, when an opportunity presents itself, you better take it! For over one hundred distributors and their guests, opportunity came knocking in the form of the very first Kangen Recruiting Mastery training held in Singapore and emceed by 6A2 Yeo SinJo.

Local distributors and other distributors from around the globe convened for a fantastic meeting of the minds and to be taught by some of the most prominent and experienced people in the industry. With amazing people like 6A Shirleen GrandGeorge, 6A2-2 Shirly Ng, 6A2-3 Kelvin Mok, 6A Benjamin Heng, 6A Abel, 6A Winston Lek, 6A2-2 Jenny Lim, 6A2-2 Philip Yiin, 6A2-2 Lily Sng, 6A4-4 Judy Fleming, and 6A3-3 Jit, it was no surprise that amazing information and training topics were covered. Attendees were given an in-depth look at the Enagic business and how to maximize their time and effort. They covered topics like the Enagic Compensation plan, the “Keys” to the Enagic business, and even how to approach and follow up with new and current prospects.

After the extensive eight-hour seminar, presenters were given certificates of recognition for their hard work and expertise. With such incredible knowledge shared, both

distributor and corporate staff alike are sure that the Singapore market will become an even more important part of Mr. Ohshiro’s vision and message of True Health. The next Kangen Recruiting Mastery Training is set to be held on May 11th this year and is slated to have an attendance much larger than the initial training.

Mr. Ohshiro is hopeful for the future, saying, “Humans are only as great as the knowledge we hold. With so many different people succeeding in this business, we can only improve our ethic, and the way we work by sharing the information we’ve all gained. I look forward to the future knowing we have such enlightened and talented teams working to spread the message of True Health!”

Hong Kong

Enagic Hong Kong Helping the Global Community

Enagic is a global company and, as such, is also part of the global community. Sometimes regions which seem to have little connecting them become untied by a noble common cause; this was the case recently between Enagic Hong Kong and two orphanages in Vietnam. In Vietnam, there are over one and a half million orphans. With such a staggering number of children left without a home, it takes truly special individuals to open their arms and give these kids a safe place to live. Both the

Chua Duc So Orphan House and Lin Son Temple have opened their doors to help raise children who have lost parents and have no other relatives to care for them.

In order to successfully overcome the pitfalls and challenges being an orphaned child can create, these kids need to live their lives with a solid foundation of a healthy mind and healthy body. While these locations have been doing well to provide the best care possible, it seemed something was missing. Enagic saw a need arise and were determined to help out as best they could. In an effort to provide the very best for these inspiring young individuals, Enagic Hong Kong donated a LevelLuk Super501 to both of these orphanages. Enagic Hong Kong knew these children needed more out of life. While the care they had been receiving was already great, they knew that all the care in the world couldn't give

proper hydration like Kangen Water can. Now with these machines installed, the children and caretakers have never felt better!

Not only are both the children and their caretakers better hydrated, but these machines have also opened up new educational avenues for these youths to explore. The fascinating technology sparked interest in both children and adult alike, and has created a fire in the hearts of those who gifted these incredible machines. With such a positive response, Enagic Hong Kong is determined to spread this wave of health to as many people as they can. They plan on donating many more machines to children in need and can't wait to see the positive effects of Kangen Water in action! Whether living in a home or an orphanage, children deserve the very best life can offer, and Enagic is always prepared to do what they can to answer that call.

Road to 6A

The Circle of Compassion – The Foundation of True Health

Enagic is very fortunate to have distributor leaders with extensive experience in direct sales and the network industry. These people have taken it upon themselves to share their knowledge with their fellow distributors. This article was created with input from outstanding Enagic leaders from around the world.

It doesn't matter if you are a brand new Enagic distributor or a seasoned pro, the Circle of Compassion should play a huge part in how we conduct business and even how we live our lives. In order to truly comprehend the vision of Mr. Ohshiro, you must first understand the key principles of this life changing ideology.

The Circle of Compassion encompasses the different facets of True Health and became a representation of the circular nature of this unique concept. The idea of True Health was originally envisioned by Mr. Ohshiro decades ago and had a very simple goal: help a single person achieve True Health and then that person, in turn, helps someone else do the same thing; much like the "pay it forward" ideology. The True Health a person discovers comes full circle when they share it with someone else.

By helping others discover the benefits of True Health, we complete a link in the chain created by the Circle of Compassion. True Health, the foundation of the Circle of Compassion, is made up of three different aspects of health. The first is physical health. Without physical health, we have nothing. All the money in the world means nothing if you are too sick to enjoy it. Although all three aspects of True Health are important, physical health is the framework - the foundation - on which the others are built.

After physical health is financial health. Once you are feeling great, you should also be able to thrive financially, which is the reason Mr. Ohshiro created the Enagic Distributor business; as a means for anyone to be able to discover financial health.

The last health is mental - or spiritual - health. This type of health helps you discover who you are and what is truly important to you. It's a combination of "why am I here" and "what legacy do I want to leave," mixed into one. It is a health which differs for all people and may include spirituality, religious belief or simply your core convictions regarding life and the freedom a person may enjoy with peace of mind.

When all three aspects of health are achieved, then a person has realized True Health. Once a person has realized True Health, then they are ready to complete the Circle of Compassion, by sharing what they have learned and helping others to achieve True Health.

It is important to understand that the actual "Circle of Compassion" is less of an actual circle and more like a figure eight, which is symbolic of the 8-Point commission structure of the patented Enagic compensation plan. It is made up of two intersecting circles, much like the symbol for "infinity," which looks like a sideways number eight. Each individual circle is created as an individual realizes their own version of True Health, and their circle becomes connected to the next person they share it with, and so on. Each person who realizes True Health becomes a link in an ever-expanding chain of hope, health and prosperity. If you understand this and live by Mr. Ohshiro's definition of True Health, then you will not allow the chain to stop with you. In fact, you will work hard to make as many new links to the chain as possible and to help others do the same. The idea is for this to become both personally and financially rewarding.

Every Enagic Distributor should strive to discover True Health for themselves and their family members. By experiencing the benefits of True Health, each person is in the position to be able to effectively share with compassion and help others discover this amazing concept. Remember each day that the mission you are a part of is much more than simply selling a consumer product; our mission is to bring True Health to the world and to allow everyone to experience the power and fulfillment of being an important part of the Circle of Compassion!

Stories of Success

Two Inspiring Tales of Compassion

As a company, Enagic is unique in so many ways, but one of the biggest has to be the way Mr. Ohshiro interacts on such a grounded, personal level with the distributors. Unlike the vast majority of businesses, where profits are put ahead of people, Mr. Ohshiro has proven time and time again that a simple compassionate act can be an incredibly effective means of motivation. Here are two such examples.

The Grateful Ride & Two Thousand Dollars of Compassion

"Ohshiro can sometimes speak critically, but he is overflowing with compassion. His compassion of heart was something he was taught to have by his mother. This same compassion spreads throughout his distributors. There was a time when a new distributor was in a lot of trouble. She came to pick Ohshiro up at the airport; much was discussed during the car journey. Ohshiro realized she was in financial difficulty, so he gave her a token of appreciation for picking him up. It was a four figure sum. She went on to work harder than most to establish a strong foundation for the opening of the Washington State branch.

A man of Filipino descent had become a distributor. He said that he had experience of working for a Japanese multi-level marketing company. But he was on the brink of financial collapse. He had started selling Kangen Water machines, but had not yet found his stride. Even the twenty dollar check he wrote as payment for promotional products bounced. If it had been a mistake in calculations, that might have been understandable; but it seemed that he had become an Enagic distributor as a result of extreme financial pressure.

Ohshiro realized the strain he was under, and decided, out of compassion, to pay him two thousand dollars a month for three months. He rented an office in New Jersey and focused on sales on the east coast. Today, he makes a great

contribution to the company as one of the top distributors in the country. A man whose twenty dollar check once bounced is now one of our millionaires. Helping others will lead to being helped yourself.

For the New York office, Ohshiro chose an office building in the middle of Manhattan, where rents are sky-high. New York is the financial center of the United States—and of the world. Compared to Los Angeles, New York is a world city. It's also close to the EU market. Success in New York created a bridge linking the east coast to the EU market, and raised the Enagic Group up onto the international level. If we look back over the history of the New York branch, we can call the branch as it stands today the fruit of Ohshiro's compassion."

Enagic is a company built on the foundation of the concepts and ideals it promotes, such as compassion for your fellow person. It is a refreshing change from the cut-throat world of global corporations, which is just one more way Enagic is able to distinguish ourselves from the others in our industry. Talking about helping others is easy, but actually following through

with it is what separates the talkers from the doers, and Mr. Ohshiro has dedicated his life to being a doer!

Copies of this inspiring and insightful book are available on the Enagic website and at Enagic offices, and make an excellent gift for any new or seasoned distributor!

Above is an excerpt from the book **Quenching the Thirst for Global Success**, the Success Story of Hironari Ohshiro. It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic.

A must for distributors, it is available at www.enagic.com/shop

Also available in Chinese, Italian, French and Spanish! Contact your local branch office for details.

Congratulations to each of you for your outstanding achievement!
